

How to get a trade-in value from JD power

Step 1

Click here to go to JD Powers and follow the easy-to-use instructions.

<https://www.jdpower.com/trade-in-value>

Step 2

Put in the year, make, model, trim level, and click next.

Step 3

Choose standard equipment or select your options if you choose, select options you will be able to add different options that your vehicle has.

Step 4

Put your mileage in, and zip code. Then click calculate value.

Step 5

This will open a window asking which new car you are interested in purchasing you can fill this out if you want otherwise at the bottom of the window click on I don't want to save money on a new car.

Step 6

Next, it will open a window showing your vehicle's rough, average, and clean trade-in value.
